Bruno Conterato

Machine Learning Developer | AI Engineer
Goiânia, Goiás, Brazil

Summary

Bruno Conterato is a seasoned Machine Learning Engineer with over 6 years of experience in software development and consulting. He excels in designing and implementing intelligent algorithms, with notable projects including vehicle damage detection and debt collection systems. His expertise spans a wide range of technologies, including machine learning frameworks, NLP models, and cloud platforms.

With a strong foundation in MLOps practices, Bruno is adept at creating, deploying, and monitoring machine learning models. He has hands-on experience with cutting-edge conversational AI technologies, including LangChain, LlamaIndex, and RAG techniques. His proficiency extends to deep learning libraries like PyTorch, and he has completed several relevant certifications, including Udacity Nanodegrees in Deep Learning, Deep Reinforcement Learning, and AI for Trading.

Bruno's technical versatility is further demonstrated by his full-stack development skills, contributing to web and mobile applications, including video platforms and social networks. His collaborative approach and innovative problem-solving abilities have led to success in hackathons and startup competitions, showcasing his capacity to deliver impactful technology solutions in diverse environments.

Key Competencies:

- Advanced NLP (OpenAI GPT, Hugging Face)
- MLOps (Deployment, monitoring, Docker)
- Deep Learning (PyTorch, Transformers, CNNs, GANs)
- Conversational AI (Langchain, LlamaIndex, RAG)
- Cloud Computing (AWS, Azure)
- Big Data (Spark, Hadoop HDFS)
